HASSAN RAZA

Software Quality Assurance

📍 Nadirabad Lahore Cantt | ✉ qa.hasanraza@gmail.com | ⚓ LinkedIn | 📞 +92 (302) 0533331

SUMMARY

Dedicated Manual Tester with a Bachelor's degree in Computer Science, passionate about delivering exceptional software performance. Recognized for a keen eye for detail and expertise in uncovering bugs, ensuring a seamless user experience. Proactive team player focused on enhancing software quality to meet client requirements and industry standards.

PROFESSIONAL EXPERIENCE

Software Quality Assurance Tester   March 2024 - Present

Kreatorz.co   Lahore Cantt

Specialized in manual testing across diverse projects, including a Ride-Share Mobile Application, Ryvato iOS App (Project and Task Management), and an Attendance Management System Web Application.

Key responsibilities:

- Analyzed client requirements and design specifications.
- Developed comprehensive test cases and detailed test plans.
- Identified, documented, and reported bugs with actionable insights.
- Collaborated with developers to resolve issues efficiently.
- Conducted functional, regression, integration, reliability. smoke and sanity testing.
- Delivered high-quality software aligned with client expectations and industry standards.

PROFESSIOANAL SKILLS

- **Testing Expertise:** Functional, regression, integration, reliability, compatability, smoke and sanity testing.
- **Tools:** Jira, Swagger, Asana, Slack TestRail.
- **Documentation:** API testing, test cases, bug reports.
- **Collaboration:** Effective communication with cross functional teams.
- **API Testing:** Proficient in validating API endpoints for accurate responses and seamless functionality.
- **Platforms:** Testing across Android, iOS, and web browsers.

PROFESSIONAL PROJECTS

Ride Share Mobile Application

Role: Worked as a Manual Tester, ensuring smooth functionality across both Android and iOS platforms.

Responsibilites:

- Understood and analyzed client requirements.
- Created detailed test case documents, covering all possible scenarios.
- Verified UI/UX consistency and application behavior.
- Identified and reported bugs using Jira and collaborated with developers for resolution.
- Used Swagger for API testing and endpoint response verification.

Attendance Management System (Web Application)

Role: Worked as a Manual Tester, ensuring smooth functionality and responsiveness across different browsers.

Responsibilites:

- Analyzed client requirements and created comprehensive test case documentation.
- Assessed UI/UX interface and ensured responsiveness.
- Identified and reported bugs, collaborating with developers to resolve issues.
- Performed functional, regression, and integration testing.

Ryvato iOS App (Project and Task Management)
Role: Manual Tester ensuring app functionality, usability, and performance on iOS devices.
Responsibilities:

- Analyzed client requirements for comprehensive feature testing.
- Verified UI/UX consistency for seamless task management and alerts.
- Tested timeline views, analytics, and other critical features.
- Conducted functional, regression, and integration testing.
- Verified API endpoints using Swagger.
- Identified and documented bugs using Jira, working closely with developers for resolution.

EDUCATION

Lahore Garrison University   **DHA, Lahore**
Bachelors of Computer Science   Oct 2020 - July 2024
Courses: Operating System, Object Oriented Programming, Data Structure and Algorithms, Networking, Database Management, Network Security

SOFT SKILS

- **Problem Solving:** Resolving complex issues with strong analysis.
- **Test Planning & Execution:** Designing and executing effective test strategies.
- **Team Collaboration:** Working seamlessly with cross-functional teams.
- **Effective Communication:** Conveying technical concepts clearly.
- **Continuous Learning:** Committed to professional growth.
